Project-007 : Movie-Seat-App (JS-07)
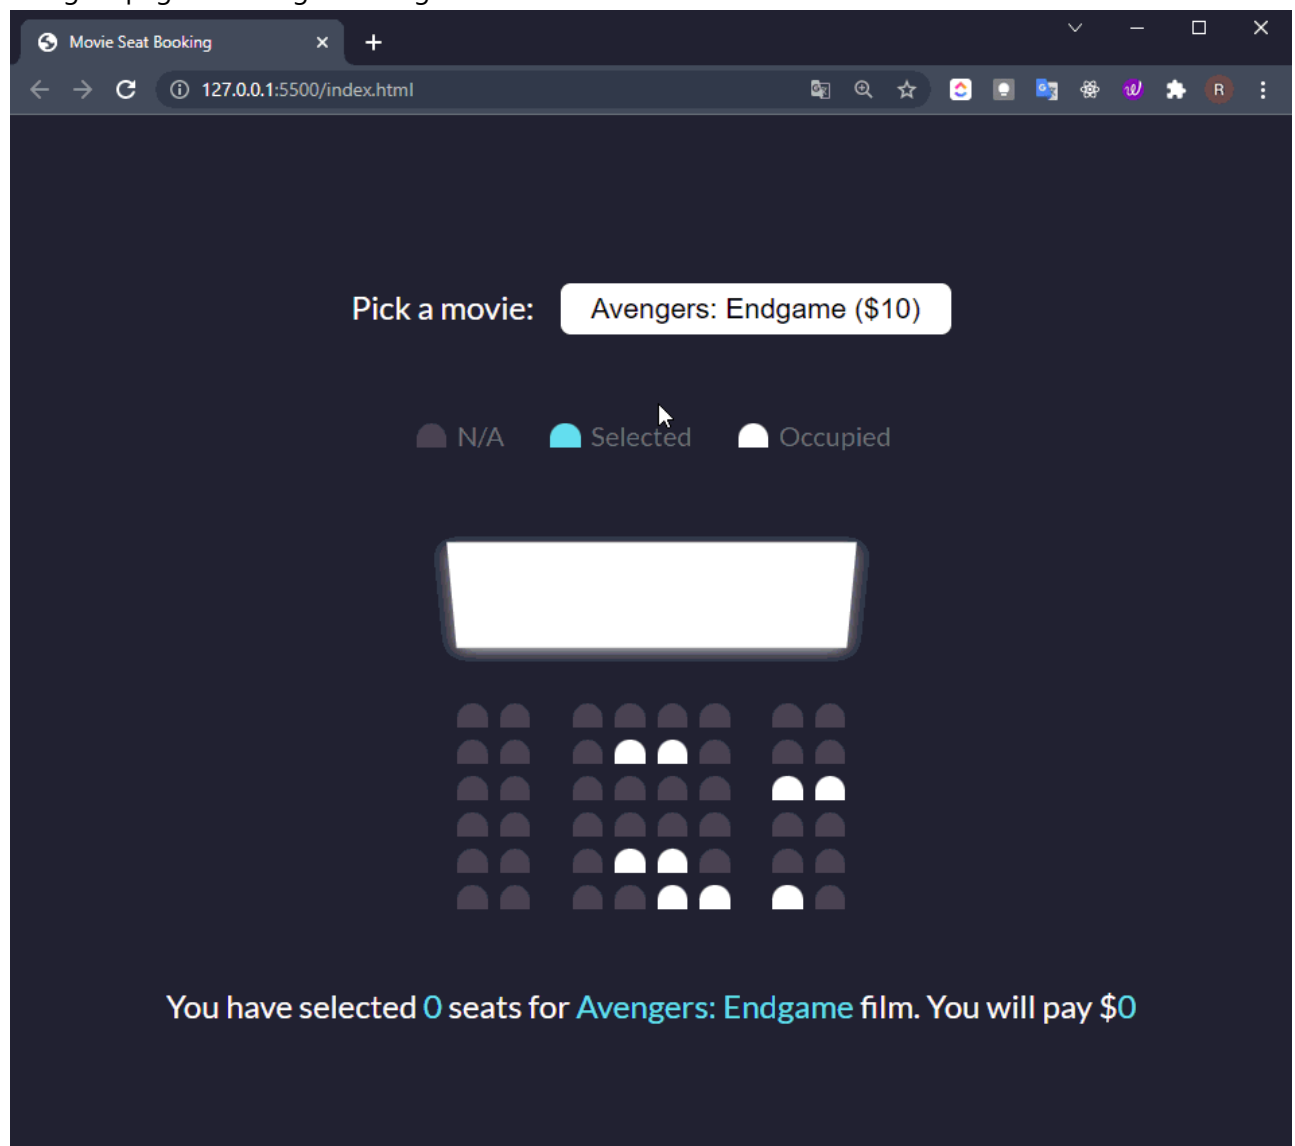

Movie Seat Booking

Display movie choices and seats in a theater to select from in order to purchase tickets

Project Specifications

- Display UI with movie select, screen, seats, legend & seat info
- User can select a movie/price
- User can select/deselect seats
- User can not select occupied seats
- Number of seats and price will update
- Save seats, movie and price to local storage so that UI is still populated on refresh

Problem Statement

- Design a page following the design in.

⌛ Happy Coding ✍
